PROJECT DESCRIPTION

Lonna M. Malmsheimer received her Ph.D. from the University of Minnesota and is Professor of American Studies at Dickinson College. In the months following the Three Mile Island nuclear accident on March 28, 1979, Professor Malmsheimer, with the help of Professors Melissa Kassovic, Julius Kassovic and Daniel Bechtel, conducted research and interviews of the Carlisle public. The general aim of the project was to discover the public reaction and personal feelings towards the nuclear accident. Those interviewed included people in the Carlisle community, workers in various county offices, the staff of local hospitals, students in the local public schools, as well as Dickinson College staff, professors, administrators, and students. This research was conducted in the form of interviews, which have been transcribed and are also contained on 293 cassette tapes. The other interviewers involved in the project consist of Dickinson College students and other volunteers: Sara Barakat, Darell Chao, Steven Devlin, Karen Diemer, Michelle Erich, Janet Gould, Janet Grant, Lyle Herr, Anna Herrmann, Bob Hupp, David Kloss, Chris Leister, Bill Lemuer, Tim Longwill, Mary Otey, Terry Rasch, Wayne Reynolds, Gail Robinson, Beth Sandbauer, Martha Thompson, Ken Williams and Robin Wilson.

COLLECTION DESCRIPTION

The Lonna Malmsheimer collection consists of assorted newspaper articles, transcripts of interviews and audiotapes collected during her work with various other Dickinson College professors concerning the public reaction to the Three Mile Island accident on March 28, 1979. The collection, composed mainly of interview tapes and transcripts, is divided into 3 series.

Series 1 – General Papers is divided into 5 sub-series: Correspondence, Printed Materials, Reports, Student Papers and Miscellaneous. In the Correspondence sub-series there is one office

memo concerning the interview procedures and two letters organized according to date. The Printed Materials sub-series consists of newspaper and journal articles concerning Three Mile Island organized according to the date published. The Reports sub-series contains two reports discussing the aftermath of the incident and the various findings after investigation organized according to date published. The Student Papers sub-series contains three TMI interview analyses submitted by Dickinson College students, organized by date. The Miscellaneous sub-series is made up of 5 children's drawings of the nuclear plant on Three Mile Island.

Series 2 – Interview Transcripts consists of the typed accounts of TMI interviews conducted by the various interviewers named in the collection inventory. They are organized according to the original order of the audio tapes to which they correspond.

Series 3 – Audio Tapes consists of tapes that correspond with the interview transcripts. Tapes for the Press Meeting (transcript contained in Series 1 – General Papers, sub-series Miscellaneous) are labeled separately and have been placed at the front of the series.
